Webb Melder
*County appointed seat on
Lone Star Groundwater
Board*

A SUMMIT ON THE FUTURE OF GROUNDWATER IN MONTGOMERY COUNTY

The 2018 Are We Really Out of Water Summit, hosted by the Conroe/Lake Conroe Chamber of Commerce and sponsored by Quadvest, will take on the tough topic of groundwater in Montgomery County and how it affects each and every Montgomery County citizen. The debate about the future of our water supply has been raging for months, and the Water Summit is here to provide details about what the future holds, and how you can get involved. Speakers include Representative Will Metcalf, who was instrumental in the passage of HB 1982, signed into law by Governor Greg Abbott, allowing citizens to elect officials to the Lone Star Groundwater Conservation District for the first time in history. The board, which was previously led by appointed officials as opposed to elected officials, controls the pricing and usage of groundwater in Montgomery County.

Tickets available at conroe.org
